

Drug Name: Advicor

Common Use: Treatment of high cholesterol

Coverage Requirement: A trial of one of the following medications prior to the use of Advicor

lovastatin* (generic for Mevacor)
pravastatin* (generic for Pravachol)
simvastatin* (generic for Zocor)

*If your plan includes GenericSampleSM, the first 30-day fill of this medication will be free. GenericSample is only offered at participating retail pharmacies and is not available on HealthSaveSM plans or under the 90-day maintenance drug benefit.

Coverage Rationale: Advicor is a combination of a statin medication and niacin. Single agent generic statins should be considered first when appropriate.

*If your doctor would like an exception to step therapy, he or she may request preauthorization by calling SelectHealth Pharmacy Services at **801-442-4912** (Salt Lake area) or **800-442-3129** weekdays, from 7:00 a.m. to 8:00 p.m., and Saturdays, from 9:00 a.m. to 3:00 p.m.*
