SelectHealth publishes a Policy Update Bulletin monthly with new, revised, and archived policy information as well as policy developments and related practice management tips.

Questions? Contact Marcus.Call@SelectHealth.org.

SelectHealth Policy Updates

For this update, there is one new coding & reimbursement policy, Ocular Imaging (92).

There are 5 revised policies (see Table 1) and no archived policies.

For all medical policy updates in this document, the listings in each row are arranged alphabetically by policy title. These policies link to the relevant online, specialty-based booklets where each policy begins as indicated in the table.

TABLE 1. REVISED MEDICAL POLICIES

<table>
<thead>
<tr>
<th>Policy Type, Title, and (Number)</th>
<th>Revision Date</th>
<th>Summary of Change (only applies to Commercial plan policy unless otherwise indicated in BOLD type)</th>
</tr>
</thead>
</table>
| Chiropractic Services for Children (584), see page 2 of the linked Pediatrics booklet | 07/01/22 | Clarified language in criteria to align with plan language for services for the following age groups:  
  • Covered for children ages 13 to 18 (according to individual plan benefits)  
  • Covered with criteria for ages 7 to 12  
  • Not covered for children under age 7 |
| Gender Affirmation Surgery (386), see page 26 of the linked General Surgery booklet | 07/20/22 | Added the following to potentially covered procedures:  
  “3) Cervical cancer screening may be medically necessary for transmasculine person(s) who have not undergone a hysterectomy.” |
| Liver Transplant (Cadaveric) (142), see page 49 of the linked General Surgery booklet | 06/30/22 | • Removed the word “Adult” from the policy title  
  • Modified the following portion of criteria:  
    “i. No uncontrolled and/or untreated psychiatric disorder or substance use disorder that would interfere with compliance to a treatment regimen.” |
| Magnetic Resonance Imaging (MRI) for Cardiovascular Indications (154), see page 63 of the linked Cardiovascular booklet | 06/30/22 | Modified the following portion of criteria: “Known, suspected, or genetic carrier for cardiomyopathy:  
  • Dilated  
  • Hypertrophic  
  • Infiltrative or restrictive  
  • Myocarditis” |
| Pectus Excavatum Surgery (160), see page 76 of the linked Cardiovascular booklet | 06/30/22 | Included the option of meeting the necessary correction index requirement to qualify for coverage: “2. Haller index ≥ 3.25 or correction index ≥ 28% by non-contrast chest CT…” |
SelectHealth Coding Updates

Incident-to Billing
SelectHealth will be eliminating “incident to” billing for Advance Practice Professionals (APPs) in the future. All APP providers should be credentialed with SelectHealth to avoid any billing issues when this change takes place.
For credentialing questions, contact provider.development@selecthealth.org.

Cervical Cancer Screenings
Effective April 1, 2022, SelectHealth no longer covers cervical cancer screenings (pap smears) for members under the age of 21 based on the guidance from the U.S. Preventive Services Task Force (USPSTF).
