Health Insurance Definitions

We understand health insurance terms can be confusing. We’ll define some commonly used terms that help explain how your health coverage works.

**DEDUCTIBLE**—Amount you must pay to doctors and facilities before your plan pays for certain covered services.

**OUT-OF-POCKET MAXIMUM (OOP)**—The total amount you may pay for services covered by your plan each year. Things like deductibles, coinsurance, and copays may apply to your out-of-pocket maximum.

**COINSURANCE**—A percentage of the cost of a covered service that you pay after you’ve met your deductible. For example, you pay 20%, the plan pays 80%.

**COPAY**—A fixed amount you pay the doctor, pharmacy, or facility for covered services. For example, you might pay $20 for an office visit with your specialty care doctor.

**FORMULARY**—A formulary is a list of Part D medications covered by your SelectHealth Advantage plan. You can use the formulary to find a medication, its tier, cost, and any special requirements.

**NETWORK**—A network is the combination of doctors and facilities contracted with us to give you care for the best price. When you see a doctor or go to a facility that is out-of-network, the price for care will likely be higher and you are responsible to pay the bill.

**VIRTUAL DOCTOR VISIT**—Virtual visits allow you to have face-to-face consultations with your provider from home on your smart phone, tablet, or computer.

Your Network

SelectHealth Advantage® and Delta Dental Medicare Advantage®

As a SelectHealth Advantage member, it’s important to stay in your network. You can see any provider that is part of our network. We also cover emergency and urgent care services across the world.

Our affiliation with a vast number of providers and clinics across our service areas aims to ensure you get top-notch care without having to go far.

As an integrated system with Intermountain Healthcare® and affiliations with St. Luke’s Health Partners®/BrightPath in Idaho, you have access to the best possible care at the best possible prices.

The most common healthcare services used by our members are provided at clinics and with doctors who are contracted with SelectHealth.

Remember: It’s always a good idea to check the in-network status of a healthcare provider before getting care. To verify whether a provider is participating on your plan, visit selecthealth.org/findadoctor or call 855-442-9900 (TTY: 711). If you see an out-of-network provider without coordinating care with us first, you may be responsible to pay excess charges in addition to a higher copay and/or coinsurance.

Your Care Options

Not everyone wants to receive care the same way. That’s why we’ve expanded our care options to give you a choice in managing your health.

Your Regular Scheduled Care.

Primary Care Provider

A Primary Care Provider (PCP) sees patients for common medical problems, performs routine exams, and helps prevent or treat illness. You can trust a PCP to know your health history, be your partner in preventive care, and help you find other doctors when you need them. You have access to Intermountain Healthcare and their myGeneration Clinics. To find an in-network doctor, visit selecthealth.org/findadoctor.

Specialty Care Provider

When you need more than your PCP, our network of specialists and surgeons can help—and there are thousands to choose from. Our affiliations with specialty facilities mean you can count on access to top-notch care.

Local Clinics

There are Intermountain community clinics and contracted, partner clinics in your area, so you never have to drive far to get the care you need. Plus, some clinics have extended hours!

Pharmacies

Prescriptions are often top of mind when considering your benefits. We are contracted with many pharmacies nationwide. Plus, with Intermountain Home Delivery, not only will you save money, your prescriptions will be mailed directly to you. Remember to use our Drug Look Up tool or call us to find out which prescriptions are covered.

Dentists

Our Delta Dental Medicare Advantage network has local dentists near you. This is the network you will use when you need to get dental care.

When You Need Care Now!

If you have a health question, feel under the weather, or have a real emergency, you’ve got options. Choosing the right type of care can save you time and money.

Intermountain Health Answers®

Our FREE nurse line is available 24/7 for any medical questions or concerns. Call 844-501-6600 to get help and talk to a registered nurse for free.

Intermountain Connect Care®

Visit a provider for urgent care needs 24/7 via live online video using your smartphone, tablet, or computer. There’s no copay to use Connect Care. Download the app or visit intermountainconnectcare.org to get started.

Intermountain Instacare®

Our InstaCareSM clinics are open late and cost less than the ER. These are a great option for urgent care. To find a location, visit intermountain.com/nevada.

Worldwide Urgent and Emergency Care

If you need urgent or emergency care while traveling, we’ve got you covered. If you are outside your service area, all emergency and urgent care is paid as an in-network benefit—nationwide and worldwide. For an emergency, call 911 or go to the nearest hospital.
Your Benefits

Let’s take a peek at your medical and pharmacy benefits. Remember, this is just a brief summary. If you want a more comprehensive look at your benefits, review Chapter 4 of your Evidence of Coverage.
