

# Help Your Clients Stay with UCHealth in 2026

We are here to support your clients impacted by network changes—and to help grow your book this Annual Enrollment Period (AEP).

## What's Changing?

Starting January 1, 2026, UCHealth will no longer contract with some Medicare Advantage plans. Here's what your clients need to know:

- They can keep seeing their current doctor through December 31, 2025 on their current Medicare Advantage plan.
- Their care will still be covered this year on their current Medicare Advantage plan.
- This change does not qualify them for a Special Enrollment Period.
- If they want to stay with their doctor in 2026, they'll need to choose a plan that keeps that provider in-network—  
**like Select Health Medicare.**

## Why Select Health Medicare?

- UCHealth will remain in-network with Select Health Medicare in 2026.
- Competitive Medicare Advantage plans that offer medical, dental, and pharmacy—all in one.
- Additional benefits that matter: vision, hearing, over-the-counter (OTC), and more.
- Local service, provider alignment, and member satisfaction.

## Talking Points for Clients

"You'll need to take action during AEP to keep your UCHealth doctor in 2026."

"You can still see your UCHealth providers this year—nothing changes for 2025."

"UCHealth will remain in-network on Select Health Medicare plans in 2026."

## Key Dates at a Glance

**July 2025-** Current patients notified by mail from UCHealth.

**October 15-December 7, 2025-** Clients may join, switch or drop a Medicare Advantage plan during AEP.

**January 1, 2026-** UCHealth access ends for some Medicare Advantage plans.

# UCHealth 2026 Network Update

## Agent Discussion Guide and FAQ

**“I received a letter saying my doctor won’t take my insurance next year. What do I do?”**

“You don’t need to worry about losing your doctor this year. You’ll still have access to UCHealth through your current plan for the rest of 2025. To stay covered with that provider in 2026, you’ll need to switch to a Medicare Advantage plan that includes UCHealth—like Select Health Medicare—during the Annual Enrollment Period this fall. I’ll be here to help.”

**Q. Can I still see my UCHealth doctor this year (2025)?**

A. **Yes.** Nothing is changing for your care in 2025. UCHealth will remain in-network with your current plan through the end of this year.

**Q. When does the change happen?**

A. **The change takes effect January 1, 2026.** That’s when UCHealth will no longer be in-network with some Medicare Advantage plans.

**Q. Will I lose in-network access to UCHealth if I stay on my current Medicare Advantage plan?**

A. **Yes—starting in 2026.** If you stay with your current plan into 2026, UCHealth won’t be in your network anymore. You’ll need to choose a different Medicare Advantage plan if you want your UCHealth provider to be in-network.

**Q. Can I change my plan now?**

A. **Not yet.** You’ll need to wait for the Annual Enrollment Period (Oct 15–Dec 7) unless you qualify for a Special Enrollment Period (SEP). Your new plan will start January 1, 2026.

**Q. What plan lets me keep UCHealth as my provider?**

A. Select Health Medicare plans will continue to include UCHealth in their network in 2026. I will be happy to review your 2026 plan options with you when AEP starts.

**Q. What if I forget to switch during AEP?**

A. Unfortunately, if you don’t make a change during AEP, you may have to wait until the next enrollment period. That would mean you wouldn’t be able to see your UCHealth provider in-network in 2026. It’s important that we review your options together this fall.

**Q. Will my prescriptions, specialists, or benefits change?**

A. That depends on the plan you choose. Select Health Medicare offers competitive benefits and broad coverage, and I’ll help you review the details so there are no surprises.

**Q. Do I need to change my upcoming surgery or my prescriptions from UCHealth Pharmacy Mail Order?**

A. **No—not at this time.** Your care, including any scheduled procedures or prescriptions through UCHealth, can continue as planned through the end of 2025.
