

# Preventive Care

## Preventive Care Services for adults.

### Are Wellness Visits covered?

**Yes.** Adults qualify for one covered wellness visit every 12 months. These visits are a vital part of preventive care and maintaining a healthy lifestyle.

Preventive care services for adults are limited. For more information about adult preventive care services, call Member Services at **801-442-3234**.

### Do you call or send reminders for preventive care exams and tests?

**Yes.** We use mailers, brochures, and automated phone calls to inform members about preventive services.

## Preventive care services for children and teens (younger than 21).

### Do you have preventive care and Well-child visits for children and teens?

We offer Well-child visits for children starting at birth through age 20. This includes medical tests and immunizations. We will call to remind you about upcoming vaccines and exams for your children.

## Preventive care services during pregnancy.

### Do you offer preventive prenatal care services?

**Yes.** We offer preventive care including tests for issues that may arise during pregnancy such as anemia and diabetes. For more information about your preventive care benefits, please contact Member Services.
